Portfolio 2018-2021

Customer Goals

- Understand the current market
- Easily access and read critical information, while on the move

Challenges

- Large amount of different data with similar priority
- Constantly changing multiple pieces of information
- Design to avoid fat-fingering errors

INSTRUMENT DETAILS

Design Wins & Innovations

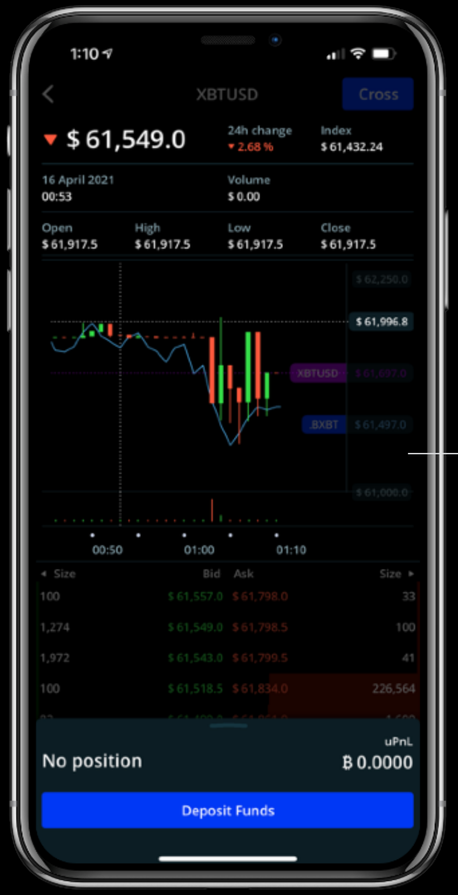
Necessarily Complex

High Information Density but still readable on quick glance

Custom designed Candlestick chart with personalized markers

Constantly updating order book with progressive disclosure.

Constant activity reflected on screen with subtle yet prominent animation



Candlestick chart stub state reveals further OHLC info while graying out the screen to help user focus on critical information
