Let’s start with a couple of high impact mobile projects...

BitMEX Mobile App

BitMEX Mobile allows users to manage all critical account features, and provides access to BitMEX's full range of innovative products. Available in Google Play Store and Apple App Store in over 140 countries worldwide (except select geographies like US, Cuba, Iran).

My team and I had the opportunity to design the official mobile application from the scratch.

The app was an instant hit with over \$5B in trade volume resulting in a revenue of over \$2M in the first six months of launch. Over 50k installations in the first 6 months and drove a 144% quarter over quarter revenue growth.
